

Represent Your Industry, Influence Your Association

2026 ANNUAL GENERAL MEETING & CONVENTION

**KANANASKIS MOUNTAIN LODGE
KANANASKIS, AB
MAY 19 - 21, 2026**

concretealberta.ca

PRESIDENT'S MESSAGE

It is my great pleasure to welcome you to the Concrete Alberta AGM & Convention. This past year has been an incredibly productive one for our association, as we continue to push boundaries, elevate our industry standards, and advocate for the value of concrete across the province.

None of this momentum would be possible without the passion, trust, and dedication of you, our members. Your active involvement is the foundation of our success and the driving force behind our strong, unified voice.

Let's use these next few days to connect with colleagues, celebrate our industry's collective achievements, and engage in valuable collaboration in this beautiful setting.

Thank you for being here and enjoy the convention!

Jim Eisenkrein
Concrete Alberta President

EXECUTIVE DIRECTOR'S MESSAGE

We are absolutely thrilled to host you here at the beautiful Kananaskis Mountain Lodge. Over the next three days, we have a fantastic lineup of sessions, networking opportunities, and celebrations planned. Whether you are joining the conversations at our business meetings, exploring the trade show or hitting the links, this convention is all about connecting with old

friends, meeting new ones across our industry and coming together to make our industry better.

A massive thank you goes out to our Convention Committee, the Concrete Alberta Board of Directors, and our incredibly generous sponsors for making this entire event possible. Please take advantage of everything we have on the agenda, share your ideas, and most importantly, have a great time!

Dan Hanson
Executive Director

SPEAKERS

KEYNOTE: JON MONTGOMERY

Olympic Gold Medalist | Host, The Amazing Race Canada

Jon Montgomery captured the hearts of Canadians and the attention of everyone during the 2010 Vancouver Winter Olympics. After years of hard work, training, and perseverance, Montgomery won a gold medal in the skeleton, securing his place in history as one of the best. His celebratory walk through Whistler Village showcased his passion, spirit, and sense of humour — traits that he brings to every platform, whether in front of a live audience or as host of The Amazing Race Canada.

A casual trip to Canada Olympic Park left an indelible mark on Montgomery when he witnessed a skeleton race and immediately fell in love with the sport. In his rookie season, he kicked off his World Cup campaign with a bronze medal, going on to finish in the top ten three more times. He finished sixth overall. His sophomore season saw him earn five podium finishes, including his first World Cup victory and a silver medal at the World Championships. Montgomery placed second overall and from there went on to win his Olympic gold medal at the 2010 Vancouver Olympics.

Today, Montgomery is the host of the hit TV show, The Amazing Race Canada, which has earned him two Canadian Screen Awards. He also co-hosted the Junos in 2016 with Jann Arden.

Montgomery embraces any opportunity to engage with live and virtual audiences, whether as a keynote or host. He shares his journey from the flatlands of the prairies to the top of the Olympic podium, reminding audiences why the goals we set for ourselves are only as achievable as we believe they are.

RICK SINGH

Vice President of Sales, AICrete

Artificial Intelligence is dominating headlines, but what does it actually mean for ready-mix producers today, and what should you do about it?

This session cuts through the noise to help industry leaders distinguish AI hype from practical reality, while providing a clear, actionable framework for adoption. Attendees will gain a grounded understanding of where AI truly stands today, where it's heading, and

how to avoid common misconceptions driven by media, bias, and overpromising technologies.

More importantly, the session focuses on the human side of AI adoption, why fear often stalls progress and how shifting toward curiosity unlocks opportunity. Participants will explore the real barriers to adoption, including cultural resistance, automation bias, and lack of trust, along with practical ways to overcome them.
